INTERNATIONAL

UNION UPDATES

Currently the International Union is working with Congress to push Phase 3 of the Coronavirus Stimulus Package. Currently Senate Republicans have carved out more protections and bailouts for Corporations rather than worker protections. We need our members to call and tell them to protect workers, provide paid sick leave, and make sure workers are taken care of before corporations.

UNITEHERE!

Midwest Joint Board

UPDATES

Midwest Joint Board members are encouraged to file for unemployment if they have entered lay off status. Michigan, Ohio, Pennsylvania, and West Virginia have all expanded unemployment and removed barriers for workers who need to apply for unemployment because of this pandemic.

- Members of the Midwest Joint Board continue to meet with industry leaders across the region on a weekly basis to continue to put into action plans to make sure workers are protected and members are protected.
- Michigan is joining other states in announcing an order to shelter in place effective at Midnight on Tuesday, March 24th. This will last at least two weeks and will require all non-essential activities to cease. People are still able to go outside and walk/exercise, grocery shop, go to essential doctor's appointments, and check in/take care of family and friends.
